
CHOICE
ARCHITECTURE
LOT 25 · BELLBIRD VALLEY
A concept for
Kennedys Bush.
A home designed specifically for the contour, outlook and light of Lot 25.

THE SITE, AND THE HOME IT COULD HOLD

Designed from the land up.

A living pavilion and a bedroom pavilion, connected by an entrance gallery and oriented to claim the view across the plains and the Port Hills. The main living level is lifted to the outlook, with sheltered parking tucked beneath.

THE TERRACE

Living, out over the plains.

THE LIVING PAVILION

Every space holds the view.

Floor-to-ceiling glazing and a timber-lined gable ceiling define an open kitchen, dining and living space, with expansive views across the valley.

THE MASTER

A retreat above the valley.

THE NEXT HOME

This is one home, designed for one site.

Every section at Bellbird Valley deserves the same — a home shaped by its own contour, outlook and light. We'd welcome the chance to design it.
